Mission

To deliver superior HVAC and Cleanroom solution with an unmatched client experience, resulting in the highest levels of respect from our community and a rewarding environment for our employees to succeed. Never accepting past performance as good enough: but continuing to strive for new levels of excellence.

Vision

P&R HVAC & Clean Room INC to be the premier HVAC and Cleanroom solution provider setting high unmatched standards for all service providers – providing quality, value, and customer satisfaction.

Clean Room Solution

P&R HVAC & Clean Room INC is a premier provider of turnkey cleanroom solutions to help innovators innovate faster. Our clean enclosed areas are widely used in electronics, pharmaceutical, medical, Aerospace, food and research facilities of colleges or universities. The construction and versatility of our modular clean room allow us to meet our client's varied requirements.

We understand the importance of contamination and dust-free room in Pharmaceutical and its related Industry at every phase of project, from layout to validation.

- ➔ Electronic Part Production
- ➔ Research Facilities
- ➔ Pharmaceutical Companies
- ➔ Medical Laboratories
- ➔ Aerospace Industry
- ➔ Nano Technology Production
- ➔ Optics & Lens Manufacturing
- ➔ Military Applications
- ➔ Veterinarys Cleanroom

HVAC SOLUTIONS

We take care of every kind of Centralized & Industrial Air Conditioning Solutions (HVAC Solutions) for any building type & take care of entire turnkey projects i.e. Designing, Sales & Execution, all across India. We provides expert HVAC services along with HVAC design and drafting services so as to meet the needs and requirements of our esteemed clients across the globe. The term HVAC stands for Heating, Ventilation, and Air-Conditioning services. In every construction project there is a need to integrate proper and accurate HVAC services that helps construction of houses, buildings, commercial, residential, and other construction projects. With proper hvac engineering services the architects, engineers, designers, and suppliers are aware about their expertise of work and also with the update as to what is the requirement of the materials that is required at the site.

OUR UNIQUENESS

- Exceptional Service
- Cost Effectiveness
- Punctuality
- Our valuable industry experience.
- Our innovative and flexible approach
- Customer friendly team

Clean Room / HVAC Validation

Within highly regulated environments such as medical device and pharmaceutical industries, there is a requirement to provide an appropriate amount of assurance that critical processes can be performed within controlled conditions in order to produce a final product that is of eminent quality, reliable, and safe for the consumer.

Our Qualified clean room performance testing (CPT) ensures the following tests as part of its tests and validation program:

- Airflow Velocity and Uniformity Tests
- HEPA Filter Installation Leak Tests
- Room Particle Count Tests
- Enclosure Pressurization Tests
- Particle Fallout Count Tests
- Containment Test
- Air Exchange Rate

Clean Room Equipments

Ensures Proper Material Flow And Personnel Safety Is Never Compromised. Sterile and clean environments demand a total assurance to the control of hygiene and cleanliness. The penalties of failing to meet the required standards can be serious in pharmaceutical dispensing, production, public health and specialised patient treatments. Clean Room Equipment sourced by P&R HVAC & Clean Room INC are easily cleanable, restrict cross contamination, provide a safe and comfortable position for the operator and most importantly ensure that the Clean room system maintains its parameters.

Cleanroom Equipments we Supply:

- ➔ Pre filters, Fine filters & HEPA filters
- ➔ Cooling coil (Chilled water & DX Type for condenser unit)
- ➔ Plenums
- ➔ Laminar Air Flow units (Vertical & Horizontal type)
- ➔ Dispensing & Sampling booth
- ➔ Air shower
- ➔ Static & Dynamic Pass box
- ➔ Bio safety cabinet
- ➔ Exhaust hood, Fan filter units etc.

Turnkey Projects

With an intensive service and operation experience in turnkey contract, P&R HVAC & Clean Room INC supplies Refrigeration and HVAC systems including detailed engineering design, related accessories, installation of piping, ducting and accessories, commissioning and troubleshooting.

All in-house design and strong manufacturing facility bring safety and reliability of products to our customers. Quality is life is our Mission to you.

We undertake all types of HVAC Turnkey contracts in industries, residential and commercial complexes, banks, IT Parks, shopping malls, educational institutes, hotels, and government organizations

Services we provide under HVAC - Design, Supply, Installation, Testing, and Commissioning of the following :

- Chillers
- Cooling Towers
- Pumps
- Chilled Water Piping
- Condenser Water Piping
- VRF
- DX Condensing Unit
- Ducting
- Thermal and Acoustic Insulation
- Dampers
- Grills Installation
- Terminal HEPA Filter with Housing

Ventilation Air Units

Validation

Documentation And Handling Over

Documentation is a crucial, yet forgotten step in any inspection/repair. Most technicians arrive on site, perform the necessary duties and move onto their next job, without documenting anything.

Believe it or not, if technicians were to take a minimum of two minutes to document their work after each job, every aspect of their HVAC business would improve.

Establishing Standard Operating Procedures (SOP) for various operational and maintenance activities of clean rooms, documenting technical details from concept to commissioning and handing over on stage wise basis as specified below.

- Design Qualification
- Operational Qualification
- Installation Qualification
- Performance Qualification
